

Hong Kong College of Paediatricians

Task Force for Higher Training of Paediatric Subspecialties in Hong Kong
“2nd Consultative Forum with Subspecialty Groups”

11th February 2004, Wednesday, Hong Kong Academy of Medicine

Procedure for Accreditation

Dr. CW Chan

Principles for Implementation

- ★ NO preset priorities for subspecialty implementation by the College
- ★ Only consensus views from the subspecialty groups accepted by the College
- ★ Comprehensive consultation and extensive participation of all subspecialty groups and potential trainers are essential for ultimate success
- ★ All accreditation documents available from the College Website

Procedure for Accreditation (I)

- ✦ Return of Application Forms from subspecialty groups
- ✦ The Task Force in consultation of the College Council will study all the returns:
 - Based on Criteria and Guideline for Subspecialty Accreditation
 - Plus allowance for individual variation within Paediatric Subspecialties
- ✦ Considerations will focus on training programmes for each of the subspecialty and NOT individual centres at this stage
- ✦ Field Visits by the Task Force to those programmes fulfilling the Criteria by Questionnaire Returns
- ✦ Recommendation to the College Council for approval on matured subspecialties

Procedure for Accreditation (II)

- ✦ Formation of Provisional Subspecialty Boards for matured paediatric subspecialties
- ✦ Formulation of detailed training programme, training centres, trainers and CME activities for the subspecialty and recommendation of "First Fellows" of the subspecialty by provisional subspecialty board (s)
- ✦ Approval of Subspecialty Accreditation by Academy Education Committee
- ✦ Inauguration of Subspecialty Board (s)
- ✦ Appeal of unsuccessful applicants by the College Review Committee, if any
