CONTENTS IN BRIEF

Editorial

Present status and direction of development of child health care in China ................................................................. 641
DING Zongyi

Special Article

Epidemiologic features of influenza in children ............................................................................................................. 644
CHEN Huizhong

Child Health Care

Effect of social and environmental factors on vocabulary and grammatical development in 2- to 3-year old children ...... 646
ZHANG Yiwen, JIN Xingming, SHEN Xiaoming, et al
Vocabulary development of toddlers in urban Beijing ............................................................................................... 650
LIANG Weilan, HAO Bo, WANG Shuang, et al
Effect of formula fortified with preformed DHA and AA on growth increment of infant .............................................. 654
DING Zongyi, DU Lirong
Logistic regression analysis of influential factors in the result of food skin prick test in children ............................ 658
HU Yan, LI Haiqi, WANG Runhua
Growth curves of children from birth to 7 years of age .............................................................................................. 662
LI Hui, ZHANG Xuan
Effects of intracerebroventricular injection of antisense oligodeoxynucleotide to neuropeptide Y Y5 receptor on levels of serum insulin, C peptide and TNFα gene mRNA expression in adipose tissue in diet-induced obese rats ...... 667
GUO Xirong, CHEN Ronghua, FEI Li, et al

Reviews

Adipocyte differentiation and transcription factor ........................................................................................................ 672
WANG Yu, DING Zongyi
Current research status of catheter interventional treatment for coronary arterial lesions caused by Kawasaki disease .... 675
HUANG Ping, HU Dayi, JIN Xiaoyan, et al

Original articles

Cardiopulmonary effects of nasal continuous positive airway pressure in infants with ventricular septal defect .......... 678
CUI Wei, GENG Rong, JIN Lanzhong, et al
Relationship between fibrinolytic activity and gestational age, birth weight, anoxia in neonate ................................. 682
ZHENG Huacheng, TIAN Liyuan, LIU Cuiqing, et al
Evaluation of biochemical factors for early diagnosis of bacterial infection in very low birth weight infants ............ 686
LU Zhongquan, ZHANG Xinliang, LIN Zhongdong, et al
Multidrug resistant gene transfer into human cord blood mononuclear cells in vitro and its expression and function ...... 690
AN Shuhua, JIN Xianqiing, KANG Quan, et al
Nineteen children suffering from acute pancreatitis induced by L-asparaginase ..................................................... 695
SHI Huiwen, WU Minyuan, JIN Ling, et al

Members of the Eleventh Editorial Board of Chinese Journal of Pediatrics ............................................................. 704
