CONTENTS IN BRIEF

Editorial

Strengthen the prevention and treatment of complications to improve the Survival rate and quality of life of preterm infants ................................................................................................................ ......................................... 81
ZHAO Shi-min

Special Article

Treatment of influenza in children ............................................................................................................................... 84
LU Quan

Neonatology

The enteral feeding in very low birth weight infants ................................................................................................. 87
DONG Mei, WANG Dan-hua, DING Guo-fang, et al

Effects of intermittent nasogastric feeding with nonnutritive sucking on nutrient and gastrointestinal tract transit time in premature infants ......................................................... 91
YUE Xiao-hong, ZHAO Cui-xia, LU Hui, et al

Lung protective strategies of ventilation in respiratory distress syndrome of neonates ........................................... 95
SHI Li-ping, SUN Mei-yue, DU Li-zhong

Effects of recombinant human erythropoietin on the immune function of premature rats ........................................ 99
TU Hui-ling, YE Hong-mao, WANG Jun, et al

Changes of tissue factor and tissue factor pathway inhibitor in neonatal jaundice due to infection ................... 104
YUE Shao-jie, ZHONG Le, HE Xiao-fan, et al

Cholesterol concentrations in cord blood of newborn infants ................................................................................. 107
ZHAO Wei-hong, LIU Yu-jie, SHOU Hao-chang, et al

Lecture

Early diagnosis, prophylaxis and treatment of intraventricular hemorrhage in premature infants .......... 110
ZHONG Hanrong, YU Shenghua, YU Xiaojuan, et al

Conference Summary

Summary of the 3rd bi-coastal symposium of neonatology and the 6th national symposium of neonatology ......... 113
The Group of Neonatology, Chinese Pediatric Society, Chinese Medical Association and Editorial Board of Chinese Journal of Pediatrics

Summary of 2002 national conferences of pediatric cardiac arrhythmia and cardiovascular diseases .............. 114
Editorial Board of Chinese Journal of Pediatrics and The Group of Cardiovascular Diseases, Chinese Pediatric Society, Chinese Medical Association

Summary of the 11th national conference of pediatric nephrology ................................................................. 116
The Group of Nephrology, Chinese Pediatric Society, Chinese Medical Association and Editorial Board of Chinese Journal of Pediatrics
Original Articles

Treatment of Wilson's disease with penicillamine and zinc salts: a follow-up study ................................................. 119
LI Ming, ZHANG Yue-hua, QIN Jiong

A nationwide survey in China on prevalence of asthma in urban children ............................................................. 123
National cooperation group on childhood asthma

Genetic diversity of human Parvovirus B19 VP1 unique region ................................................................. 128
QIAN Xin-hong, ZHANG Guo-cheng, JIAO Xi-ying, et al

Results of Wilms' Tumor Trial (WT-99) in Shanghai Children's Medical Center .................................................. 131
TANG Jing-yan, PAN Ci, XU Min, et al

Efficacy and safety of one dose ceftriaxone vs. ten-day oral amoxicillin for treatment of acute otitis media in children ............................................................ 135
ZHANG Ya-mei, DONG Pin, LU Pei

Abstracts of Original Articles

Changes of vasoactive factors in lung tissue of newborn piglets with persistent pulmonary hypertension and effect of magnesium sulphate ................................................................. 139
LIU Fang, ZHAO Shi-min, WANG Dan-hua, et al

Determination and correlation analysis of cord serum prealbumin, immunoglobulin and trace elements in different gestational age newborns ................................................................. 140
WANG Xiu-fang, YANG Jing-li, WANG Xi-ge, et al

Effects of naluxone on serious hypoxic-ischemic encephalopathy in neonates and its influence to lactic acid and blood gas ................................................................. 142
JIANG Ying, WANG Qi-XIN, LI Feng, et al

Dynamic changes of plasma D-dimerin in children with traumatic cerebral infarction ........................................ 143
YANG Shu-zhen, LI Li-na, LI Shuan-de, et al

Changes of C-type natriuretic peptide and neurotensin in rabbits brain injury induced by endotoxin .................. 144
ZHANG Yu-cai, TANG Ding-hua, ZHANG Yu-ming, et al

Effects of adriamycin on cultured mouse podocytes VEGF expressions and the potential protective effects of dexamethasone ................................................................. 146
LI Xiao-zhong, YUAN Hai-tao, ZHANG Xue-guang

Determination and clinical evaluation of serum procalcitonin in children with pneumonia .................................. 147
ZHU Guo-hong, WANG Cai-fu, LUO Shep-sheng, et al

Basal levels for gonadotropins in 318 children from birth to 6 years of age ......................................................... 148
XU Zuan-jian, HU Yu, WANG Gui-zhen, et al

Correlatio analysis of CD40L expression of peripheral T lymphocytes and serum level of IgE in children with allergic asthma ................................................................. 149
ZHANG Xiao-ying, WANG Yi-qin, DONG Hui-fang

Clinical Experience

Allogenic hematopoietic stem cell transplantation complicated with implantation syndrome in 4 cases .............. 150
HE Yue-lin, LI Chun-ju, ZHANG Yu-ming, et al
Reviews

The investigation of pathologic oxygen supply dependency ................................................................. 152
  TANG Hao-xun, FAN Xun-mei

Antiphospholipid syndrome ........................................................................................................ 154
  YANG Ji-yun

Case Reports

A case reports of lead encephalopathy ............................................................................................. 118
  WANG Hui-ping, ZHANG Shu-fang, ZHENG Ying-wen, et al

Bismuth subcitrate caused acute renal failure in a child ................................................................... 122
  ZHANG Yu-cai, TANG Ding-hua, XU Liang

Hypertensive encephalopathy caused by transfusing back of frozen cord blood hematopoietic cells in one case ...................................................................................................................... 158
  CHANG Ying-jun, WANG Jin-kai, XING Li-min, et al

Members of the Eleventh Editorial Board of Chinese Journal of Pediatrics ......................................... 160
