CONTENTS IN BRIEF

Editorials

Enhance the application of pediatric critical illness score ................................................................. 561
  SONG Guo-wei

Pediatrician should regard to the prevention and treatment of HIV infection and acquired immunodeficiency syndrome .............................................................. 563
  YANG Xi-qiang

Original Articles

Clinical application of simplified pediatric critical illness scoring system ........................................... 565
  Collaborative Group for Simplified PCIS Trial

Effects of inhaled nitric oxide on rabbits with meconium aspiration pneumonia .................................. 570
  LONG Xiao-ya, DU Li-zhong, YANG Ling-fei, et al

Clinical analysis of pediatric SARS cases in Beijing ........................................................................ 574
  LI Zhong-zhi, SHEN Kun-ling, WEI Xin-miao, et al

Development of a gap ligase chain reaction for detection of Chlamydia trachomatis in newborn infants ........ 578
  WEI Hong, WU Shi-xiao, YU Jia-lin, et al

Activation of nuclear factor κB in newborn rats sepsis ..................................................................... 582
  PAN Feng, SHI Yuan, LI Hua-qiang, et al

A survey of children with HIV/AIDS in highly epidemic villages of AIDS ........................................... 586
  ZHUANG Ke, GUI Xi-en, LUO Jia-la, et al

Identification of two novel WASP gene mutations in 3 boys with Wiskott-Aldrich syndrome ................. 590
  JIANG Li-ping, XU You-hua, YANG Xi-qiang, et al

Inhibition of respiratory syncytial virus replication in cultured cells by RNA-cleaving DNAzyme ............ 594
  ZHAO Chang-an, ZHAO Xiao-dong, YU Hai-guo, et al

The correlation between Kawasaki disease and polymorphisms of Tumor necrosis factor alpha and interleukin-10 gene promoter ................................................................. 598
  YANG Jun, LI Cheng-rong, LI Yong-bai, et al

Diagnostic values of serum levels of HA, PCIII, CIV and LN to the liver fibrosis in children with beta-thalassemia major ................................................................. 603
  XU Hong-gui, FANG Jian-pei, HUANG Shao-liang, et al

The expansion and biological characteristics of human mesenchymal stem cells .............................. 607
  ZHOU Dun-hua, HUANG Shao-liang, WU Yan-feng, et al

Standard/Protocol/Guidelines

The recommend of diagnosis and treatment for childhood HIV infection and AIDS ........................... 611
  The Subspecialty Group of Infectious Diseases, Pediatric Society, Chinese Medical Association
  The Subspecialty Group of Immunology, Pediatric Society, Chinese Medical Association

Research Reports

The effects of endotoxin on the Th1/Th2 cells and immune modulation of Astragalus membranaceous ........ 613
  LIU Jian-hua, ZHANG Ying-qian, HUANG Bo, et al
Effects of intrauterine acute ischemia and reperfusion on epidermal growth factor and its receptor of the fetal kidney in rats ................................................................. 614
WU Jie, LIU Xue-yan, GAO Hong, et al

The distribution of $^{131}$I-anti-CD$_4^+$ antibody in mice ................................................................................ 616
LU Hui, CHAI Yi-huan, XU Jie, et al

The pathological findings and inflammatory responses in the lung tissue of neonatal rats following lipopolysaccharide treatment ......................................................... 617
CAI Xu-xu, DU Yue, HAN Xiao-hua, et al

Clinical Experience

ARDS in children: a prospective clinical study in four children’s hospital in Shanghai ........................................... 619
LU Zhu-jin, WANG Ying, TANG Ding-hua, et al

The diagnosis and differential diagnosis of three suspect SARS cases ................................................................. 620
WANG Hui-ling, SHEN Kun-ling, HAN Tong-li, et al

Analysis of apnea in 229 cases of very low birth weight infants .......................................................... 622
WU Xiu-jing, XU Ya-ping, SHI Li-ping

The primary study on immunologic status of umbilical blood ........................................................................... 623
LIU Jing, SHEN Lu-sheng, SUN Shao-yong

The clinic diagnosis and analysis of two cases of congenital pulmonary dysplasia ........................................ 625
CAI Xiao-hong, ZHU Li-bin, ZHAO Zhi-guang, et al

Clinical observation of Rituximab in a CD$_{20}^+$B non-Hodgkin’s lymphoma ......................................................... 627
HAO Liang-chun, ZHANG Li-zhong

Conference summary

Summary of the national conference on pediatric infectious diseases ................................................................. 628
The Group of Infectious Diseases and Gastroenterology, Society of Pediatrics, Chinese Medical Association

Reviews

Combination of novel therapy for respiratory failure ...................................................................................... 630
ZHANG Qi, SONG Guo-wei

The role of the host defense response in ARDS and sepsis and its correlations to glucocorticoid treatment ....... 632
ZHOU Tao, FAN Xun-mei

Progresses in studies on SARS-associated Coronavirus .................................................................................. 635
GU Shao-qing, ZHU Qi-rong

Case Reports

A case of MN hemolytic disease in newborn ................................................................................................. 589
WANG Jie, CHEN Li-Hua

A case of hepato-glycogenosis of newborn ................................................................................................. 593
AN Zheng-hong, CHANG Ping, FENG Zhi-chun

A case of treatment of convulsion caused by poison of tetramethylenedisulfotetramine with medazolam .......... 629
YANG Jun

A case of restrictive cardiomyopathy ...................................................................................................... 639
PEI Fu-yu, LI Chun-fu, ZHANG Yu-ming

Members of the Eleventh Editorial Board of Chinese Journal of Pediatrics ..................................................... 640
