CHINESE JOURNAL OF PEDIATRICS
Volume 42, Number 6   June 16, 2004

CONTENTS IN BRIEF

Original Articles

A pilot study of selective screening for high risk children with inborn error of metabolism using tandem mass spectrometry in China................................................................. 401
GU Xue-fan, HAN Lian-shu, GAO Xiao-lan, et al

Clinical significance of pancreatic β-cell function in obese children with acanthosis nigricans ............... 405
LIANG Xue-jin, ZHU Cheng, YAN Chun, et al

Clinical and pathological characterization of antineutrophil cytoplasmic antibody associated small vasculitis in children ........................................................................................................ 408
ZHOU Jian-hua, TANG Jin-hui, SHI Hong, et al

Clinicopathological analysis of IgA nephropathy with crescentic formation in childhood .................................................. 412
YAO Yong, LIU Jing-cheng, XIAO Hui-jie, et al

Long-term therapeutic effect of triple therapy consisted of omeperazole, clarithromycin and amoxycillin in children with Helicobacter pylori infection and approach to re-treatment after failure of the treatment ............... 417
CHEN Xiao-xiao, OU Bi-you, WU Xiu-ying, et al

Association of interferon-gamma +874 gene single nucleotide polymorphism with susceptibility to intrauterine HBV infection ........................................................................................................ 421
YU Hui, ZHU Qi-rong, GU Shao-qing, et al

Preliminary linkage analysis of a Chinese family with benign familial infantile convulsion ........................................ 424
XIONG Ge, DENG Fei-yan, XIAO Bo, et al

Diagnosis and prognosis of neonatal cerebral infarction ........................................................................................................ 429
TANG Ze-zhong, ZHOU Cong-le, JIANG Yi, et al

Effect of adenosine on activity of transcription factor NF-κB and cytokines in myocardial tissue of experimental rats with pneumonia ........................................................................................................ 433
TAN Jian-xin, HUANG Yu-ge, HUANG Di-nan, et al

Cytochrome C release and apoptosis in neonatal rat cerebral hypoxia-ischemia ........................................................................................................................ 437
ZHU Chang-lian, WANG Xiao-yang, QIU Lin, et al

Time-course of µ-calpain activation, c-Fos, c-Jun, HSP70 and HSP27 expression in hypoxic-ischemic neonatal rat brain ..................................................................................................................... 441
JIANG Ke-wen, YANG Cui-wei, SHUI Quan-xiang, et al

Exogenous endothelin-1 induced pulmonary hemorrhage in newborn rats and the antagonizing effect of calcitonin gene-related peptide ........................................................................................................ 446
CHEN Ke-zheng, GAO Xiao-yan

Comparison of the effect of ambroxol and dexamethasone on the expression of pulmonary surfactant proteins in the fetal rat lungs ........................................................................................................ 450
FU Xue-ming, YU Jia-lin, LIU Guan-xin, et al

Brief Reports

Possible damaging effect of human cytomegalovirus infection on the kidney in children ......................................... 428
LI Shi-jun, YUAN Xiao-yang, BIAN Xing-yan, et al
Changes of plasma concentration of soluble intercellular adhesion molecule-1 and vascular endothelial growth factor in children with Henoch-Schoenlein purpura .......................................................... 454  
ZHANG Qiu-ye, LIU Wei, LEI Ke, et al

Genetic polymorphism and family aggregation of the angiotensin converting enzyme in asthmatic children .......... 455  
ZHANG Jian-hua, DING Yun-fang, TAO Hui, et al

Relationship between T354P mutation of the human sodium/iodide symporter and congenital hypothyroidism .... 456  
ZHAO Zhen, YAN Sheng-li, FU Ping

Clinical Experience

Analysis of 3 cases with nephrotic damage by anti-nertrophril-cytoplasmic antibodies associated vasculitis in children .......................................................... 458  
LI Ying-jie, GAO Yan, YE Hong, et al

Chronic renal failure in children — report of 65 cases .......................................................... 459  
CHEN Zhi, SHEN Ying

Analysis of clinical and pathological data in 111 infants and young children with glomerular diseases .............. 460  
LIU Guang-ling, GAO Yuan-fu, CHEN Zhi-min, et al

Clinical analysis of twenty cases with congenital airway abnormalities in children ........................................ 461  
WANG Cai-fu, ZHU Guo-hong, CHEN Zhi-min, et al

Efficacy of sublingual polyvalent bacterial vaccine (Lantigen B) in children with recurrent respiratory infection: a randomized double-blind controlled clinical trial ........................................ 463  
CHEN Ai-huan, CHEN Rong-chang, ZHANG Chun-qing, et al

Three cases with acute necrotizing encephalopathy .......................................................... 465  
GAO Feng, SHEN Si-xiang, ZHOU Yin-bao, et al

Clinical diagnosis of tuberous sclerosis complex in 5 children without calcified nodule on brain CT .......... 466  
HU Yan, LIAO Jian-xiang, HUAN Tie-shuan, et al

Clinical observation and long-term follow-up of benign myoclonus in early infancy ........................................ 468  
HUA Qing, WEI Peng, WEI Shu-zhen

Clinical application of nuclide scanning in diagnosis of gastrointestinal hemorrhage in children .............. 469  
ZHAO Rui-fang, ZENG Ji-hua, JI Zhi-ying, et al

Case Reports

A case with acute pancreatitis complicated by pseudocyst and pancreatic ascitis ........................................ 420  
HUANG Hua-nong, ZHONG Ying-qing, LI Wen-yi, et al

Report of two cases with lamivudine-caused extrapyramidal reaction ......................................................... 436  
DANG Hong-xing, HE Rui, MA Yue-dong

Report of a case with Alström syndrome ......................................................................................... 471  
LI Mei, XIA Wei-bo, JIN Zi-meng, et al

Reviews

Metapneumovirus, a newly discovered respiratory pathogen .......................................................... 472  
KONG Xiao-hui, JIANG Zai-fang

Possible relation of leptin with kidney and chronic renal failure ......................................................... 474  
PANG Ning, ZHOU Xiang

Autoimmune hepatitis in children ............................................................................................... 477  
XU Yi, DONG Yong-sui

Members of the Twelfth Editorial Board of Chinese Journal of Pediatrics .................................................. 480
