CONTENTS IN BRIEF

Editorial

How to cope with new challenges in the diagnosis and management of inborn errors of metabolism .................. 81
Joe T. R. Clarke

Special Article

Growth and growth hormone treatment – Anything new? ................................................................. 83
Louis Low

Studies on inherited endocrine and metabolic diseases

Mutation analysis of glycogen debrancher enzyme gene in five Chinese patients with glycogen storage
disease type III ................................................................. 85
ZHUANG Tai-feng, QIU Zheng-qing, WEI Min, et al

NEMOΔ4 – 10 deletion of NEMO gene in Chinese incontinentia pigmenti cases .................................. 89
LI Li, SONG Guo-wei, DU Jun-bao, et al

Oral glucose tolerance and insulin release test in 52 cases of obese and overweight children .................. 93
SUN Wen-xin, WANG Wei, WANG De-fen, et al

Thyroid autoantibodies in children with Turner’s syndrome ............................................................ 96
YU Bao-sheng, CHEN Rong-hua, GUO Xi-rong, et al

Lecture

Functional examination of growth hormone-insuline-like growth factor axis in short stature children .......... 99
WEI Hong, LIANG Yan, WANG Mu-ti

Conference Summary

Summary of the conference of endocrinologic, hereditary and metabolic diseases of the Society of Pediatrics,
Chinese Medical Association .................................................. 104
The Subspecialty Group of Endocrinologic, Hereditary and Metabolic Diseases, The Society of Pediatrics,
Chinese Medical Association
The Editorial Board, Chinese Journal of Pediatrics, Chinese Medical Association

Summary of 2004 national symposium on hematuria and chronic renal failure in children .................. 105
The Subspecialty Group of Renal Diseases, The Society of Pediatrics, Chinese Medical Association
The Editorial Board, Chinese Journal of Pediatrics, Chinese Medical Association

Summary of the first national symposium for chiefs of pediatric departments organized by the pediatric society,
chinese medical association .................................................. 107
The Society of Pediatrics, Chinese Medical Association

Summary of national conference of pediatric respiratory diseases .................................................. 108
The Subspecialty Group of Respiratory Diseases, The Society of Pediatrics, Chinese Medical Association

Original Articles

Effect of glucocorticoid on glucocorticoid-resistant children with primary nephrotic syndrome .......... 109
HE Xiao-jie, YI Zhu-wen, DANG Xi-qiang, et al

Diagnosis and treatment of chronic pulmonary aspergillosis in 4 children ........................................ 113
ZHAO Shun-ying, JIANG Zai-fang, XU Sai-ying
Protective effects of amygdalin on hyperoxia-exposed type II alveolar epithelial cells isolated from premature rat lungs in vitro .................................................. 118
CHANG Li-wen, ZHU Hua-ping, LI Wen-bin, et al

Effects of Bacillus Calmette-Guerin vaccination on immune functional development of splenic T cell in neonatal mice ................................................................. 124
LI Rui, LIU En-mei, YANG Xi-qiang, et al

Examination of infant bone status with quantitative ultrasound at birth .................................................. 128
LIAO Xiang-qing, ZHANG Wei-li, HE Jia-min, et al

T-type calcium channel gene-CACNA1H is a susceptibility gene to childhood absence epilepsy .............. 133
LU Jian-jun, ZHANG Yue-hua, CHEN Yu-cai, et al

Possible association between HLA-HRB1 and DQB1 genes frequency and susceptibility or resistance to Helicobacter pylori infection in Kunming Yi ethnic group children ........................................ 137
HUANG Yong-kun, WEN Ge-sheng, LI Hai-lin, et al

Brief Report

Preliminary study on cytomegalovirus infection in children with primary glomerular disease .................... 141
CHEN Ning, ZHOU Lin-ying, LIN Bin-rong, et al

Significance of plasma acylation stimulating protein in evaluation of obesity progress in children ............... 142
HU Xiu-fen, ZHANG Bin, WANG Hong-wei

Clinical Experience

Nutritional intake and weight gain of very low birth weight infants during hospitalization ....................... 144
MA Xiao-lu, ZHENG Ji-yan, TONG Fan, et al

Endoscopic findings of gastrointestinal involvement in patients with Henoch-Schonlein purpura with abdominal pain as the first symptom ................................................. 146
WEI Ju-rong, MA Hong-ling, LUO Hong-ying, et al

Clinical effects of montelukast sodium in treatment of allergic rhinitis in children ............................. 147
LI Zhi-min, YAN Wei-chao, WANG Wei-qun

A case of birch pollen-related food allergy syndrome ............................................................................... 149
SHAO Jie, LUO Hai-yan, A Purohit, et al

Case Reports

Hallervorden-Spatz disease of childhood onset type, a report of 2 cases .................................................. 151
WANG Kang, YANG Xiao-su, LI Ling, et al

Treatment of congenital chylous ascites using total parenteral nutrition and somatostatin: a case report ........ 152
HUANG Ying, Xu Hong

Reviews

Steroid-resistant nephrotic syndrome and NPHS2 gene ........................................................................ 154
YU Zi-hua, DING Jie

Rippling muscle disease in children .................................................................................................. 156
ZHANG Wei-hua, ZOU Li-ping

Reader/Author/Editor

Several questions concerning the article “Latex allergen reactivity and antigenic cross reactivity in children with allergic diseases” .......................................................... 159
SHAO Jie, CHEN Tong-xin

Members of the Twelfth Editorial Board of Chinese Journal of Pediatrics .............................................. 160
